Objective

Passionate developer specializing in full-stack web, mobile app development, and blockchain. Dedicated to building scalable, innovative, and impactful software solutions.

Education

- Jecrc University, B. Tech (CSE) with Full Stack Web Development – Avg CGPA (8)
- Raj Shree Academy School – Class X (71%)
- Sand Dunes Academy School – Class XII (81%)

Project

E-Commerce Platform (MERN Stack) - Built a multi-portal system (User, Admin, Warehouse, Shop) with role-based access, JWT authentication, and shared API services.

Decentralized MLM & Betting Game Platform - Developed a blockchain-based MLM system with integrated betting games (Plinko, Limbo, Spino), ensuring transparency and security.

Home Tuition App (Flutter & FastAPI) - Created a real-time tuition booking app with authentication, scalable backend, and smooth user experience.

Internship

Software Developer Intern in Sign Sky Technologies | 2021 – Present

- Implemented smart contract-based decentralized MLM systems using blockchain.
- Built and optimized custom web and mobile solutions for network marketing businesses.
- Worked on backend development, API integrations, and scalable architectures.

Skills

Programming Languages: C, C++, JavaScript, Python, Java

Web Development: MERN Stack, HTML, .NET MVC, .NET Core

Mobile Development: Flutter

Blockchain: Smart Contracts, Decentralized Applications (DApps)

Automation & Testing: Selenium

Architecture & Backend: Microservices, API Development, Sql Sever

Achievements & Certifications

- Certified in C, C++, Java, Web Development, .NET, and SQL Server

Strengths & Weaknesses

- **Strength:** Coding, Problem-Solving
- **Weakness:** Communication Skills (Working on Improvement)
